

57555 UTMC (Urban Traffic Management Control)

Please confirm how many traffic signal-controlled junctions are managed by the Council. In addition, please can the Council confirm whether it utilises a UTMC (Urban Traffic Management Control) common database?

The Council currently manages 657 sets of traffic signals. Of this, 278 are traffic signal-controlled junctions.

Of the 278 junctions, we have 207 that have both UTC and UTMC capability and 4 junctions with only UTMC connectivity.
