

57694 Community Centre Hire Rates

I would like to know the room booking rates for each community centre that Edinburgh Council provides business support for.

I would like to know the type of room (small meeting room, large meeting room, sports hall, games hall, etc) and how much the hourly rate is. As well as whether there are concessions for charities or local community groups/

I would also like to know which community centres offer childrens birthday parties and how much they charge per hour or what their equivalent hire cost is for this service. If possible it would be helpful to know if these centres offer just room space as a part of party bookings or if they offer other amenities such as bouncy castles etc.

We do not hold a central record of the detailed information requested. However, this can be obtained from each community centre individually.

Please find attached a list of the Council's community centres and their contact details. Each centre manages its own lets and has a scale of charges, which can be found by contacting each centre directly.

The management committee of each centre decides the let rate for each room and which concessions are given for charities and community groups.

Whether a centre offers venues for parties, the rates they charge and any other amenities they offer is the responsibility of each individual management committee based on the resources available at each centre.

In centres where there is business support, there is usually a joint arrangement whereby the Council and the committee share responsibility for taking lets and bookings. Please note that the centres marked in yellow have no business support.
