

58054 Scottish Flags Displayed on Calder Road

I have an ongoing interest in the Scottish flags that have been displayed on Calder Road since early September.

On Tuesday 30 September there was a report on the issue in the Herald national newspaper. The reporter explained how Edinburgh City Council said in an “official statement” that such flags can pose a safety hazard. The report also said: “The Herald understands officials said in internal communications sent last week (i.e. Week commencing 22 September) that arrangements were being made to ensure all flags in place were removed as a priority”.

I hereby request to be provided with a copy of these internal communications (instructing the removal of these flags as a priority).

Our response is attached. We have redacted personal information, such as some names and telephone numbers.
