Regarding "Privacy Risk Assessment in Smart City IoT Systems in Scotland."

Timeframe: from 1 January 2020 to date

Asset inventory & technical overview (highest priority)

Current inventory/list of smart city IoT devices/systems (owned or operated for the Council), including for each:

Data governance, privacy & DPIA materials

Security controls & assurance

In line with advice from the National Cyber Security Centre, we do not provide information relating to hardware, software and systems and therefore, unfortunately, it is not possible to provide you with this part of the information you have requested.

By placing information about our systems into the public domain we would potentially be putting our IT framework at risk. This would prejudice substantially the Council's ability to effectively carry out its business if its IT framework were compromised as a consequence of the disclosure of this information.

Procurement, contracts, and costs

Specific details on hardware, software and systems used will not be provided, as per our response above. Where we can provide information, this is answered below.

Contracts, call-offs, or purchase orders for the systems in Part A, including:

The City of Edinburgh Council contracts are listed in the link below.
<https://www.edinburgh.gov.uk/downloads/file/32131/contract-register>

Supplier/manufacturer names

CGI

Contract titles/references

ICT Services and Transformation Procurement

Contract start/end dates and optional extensions

These services are provided by CGI as part of our outsourced ICT contract which started 1/4/16, is currently due to expire on 31/3/29 but can be further extended to 31/3/35.

Funding sources (e.g., City Deal, Innovate UK, Scottish Government programmes)

The Intelligent Infrastructure, **Smart Waste**, **Smart Housing** and **City Operations Capability** project is jointly funded by the City of Edinburgh Council and the European Regional Development Fund (ERDF) programme known as 'Scotland's 8th City – the Smart City'. We delivered three projects budgeted at £6.4m, of which £2.5m is part of a European Regional Development Fund (ERDF) grant

Tender/award details (or links to public contract notices/award notices) and technical specifications supplied to bidders where available.

This was done by CGI as a change within our current outsourced ICT contract. Technical Specification will not be provided.

Transparency & public engagement

Specific details on hardware, software and systems used will not be provided, as per our response above.
