

58359 CC Election numbers

During Community Council elections, does Edinburgh Council record the number of applications from members of the public to become a community councillor, if an election was triggered and if so how many were duly elected?

[A list of valid nominations is recorded. If a poll is required in a Community Council election, the maximum number of elected members \(as outlined in the Scheme for Community Councils\) would be elected.](#)

If Edinburgh council does the above, how many years does this information stretch back?

[Back to the 2016 Community Council Elections.](#)

Assuming the above can I have those figures and dates for the last three elections for Marchmont & Sciennes, Craigleith and Westerhailes community councils?

[Please see attachment.](#)
