

58376 Catchment area upgrades

Please can you provide a map of the homes in Magdalene that are due for window upgrades?

Please can you provide a map of the homes in Magdalene that are currently undergoing local authority involved upgrades including renewal of windows and outside wall insulation?

Please find map attached, which shows both current phases (3-9) and future phases. It is only indicative of the properties where we may carry out window replacements. We will only carry out window replacements on Council properties that are part of our agreed program of work. We do not currently replace Council windows in blocks where we do not gain a majority agreement to proceed, despite them being part of our phasing. It should also be noted that there are discussions underway at present that the phases are subject to change/alteration.

And please can you provide a map of areas that are being used for storage in the Magdalene area only for storage of the old windows?

At present there is a storage area at the rear of the shops on Magdalene Drive, where access is from Magdalene Avenue. Please see image below. This is a Council-owned area.
