

58408

For every calendar year since 2020, please can you provide me with the number of children who have spent longer than one year in temporary accommodation in your local authority?

Please note:

Data is being provided as an 'as at figure' on 31 March each year.

A child is defined as someone aged 0-15 and in temporary accommodation as on the 31st of March where age is calculated by DOB and the reporting date.

Please note a child within a homeless household may be accommodated in Temporary Accommodation for more than 365 days in more than one reporting time period.

If a child has become 16+, at the next reporting time period and they are still being accommodated, they are no longer being counted.

Date	No. of Children
31-March-2020	1527
31-March-2021	1253
31-March-2022	1801
31-March-2023	1821
31-March-2024	1844
31-March-2025	1901
