

## 58409 Black Mould in Housing Stock

The number of incidences of black mould which were identified in your housing stock in 2025 to date (31/10/2025).

518 damp and mould inspections have been completed in this period, related to black mould /condensation.

Figures for the previous six full calendar years.

The City of Edinburgh Council's Preservation Team was established in January 2024. As a result, the Council does not hold comparable data for the previous six full calendar years, as information on damp and mould was not collated in this format prior to the team's formation.
