

58622 Street Cleaning - Slip Road Next to The Singaporean Coffee House – Canonmills

Regarding Street Cleaning, specifically at the Canonmills slip road which runs adjacent to, and in front of, the Singaporean Coffee House:

Will the City Council please state the date on which this area was last thoroughly cleaned prior to 10th November 2025?

This is not currently recorded. We can advise that the previous 'scheduled inspection' was 4 November 2025. The service is in the process of moving to digital routing which will begin to record when specific streets have been checked and cleansed.

Will the City Council please provide the worksheet, signed by the street cleaning supervisor or other official of the Council, of the last date prior to the 10th November on which this area was cleaned and left in a satisfactory condition?

If the equivalent of a worksheet is not available, please produce the digital version of this document?

This is not something that is currently recorded, however, as above, we are in the process of moving to digital routing.

Will the City Council please advise if its dustmen have instructions to report this type of mess when they encounter it in the course of their waste collection duties?

Fly-tipping is reported by crews to the Supervisor or directly to the Cage Vehicles which deal with the fly-tipping.

Will the City Council, please advise if the dustmen reported the state of this location and if so, on what date the report was received?

The crew will often call the Cage Vehicles directly. This is not recorded.
