

58847 Edinburgh city housing stock of tenement buildings

I would like to request if information is stored on the following:

Edinburgh city housing stock of tenement buildings including social ownership numbers

Conservation areas with tenements – how many tenements Listed building status e.g. cat. A, B or C per area

The Council owns individual flats within 8,000 tenement blocks across the city; most of those blocks are mixed-tenure though some are fully Council-owned.

666 Council-owned tenement blocks are located within the city's conservation areas. Of these, 9 blocks are Category A listed, 51 blocks are Category B listed, and 20 blocks are Category C listed.

Grant funded eligible - how many tenements Pitched roofs – slate or concrete tiles Flat roofs?

Lead roofs

Sandstone blocks

Bricks

Modern materials

Age of tenements

We consider the request to be manifestly unreasonable because we estimate that to respond to this part of your request, we would have to conduct a manual search of electronic records and site visits to all 666 tenement blocks. The information is not recorded centrally, and therefore this would be a manual task. We estimate that to complete the task for one block would take approximately 10 minutes. By this calculation, to comply with this part of your request would take approximately 111 hours of officer time.
