

58860 RAAC homes

I understand the number of tenanted properties is 44, and would like to know the total number of homeowners affected at the point of discovery.

As of 02 Dec 2025:

- The number of privately owned homes in previously City of Edinburgh properties where RAAC has been discovered directly in the ceilings is 28.
- The number of privately owned homes in previously City of Edinburgh properties where RAAC has been discovered and will be impacted by presence of RAAC, directly in the ceiling and/or indirectly is 54.
- The number of Council homes that are impacted by the presence of RAAC, directly or indirectly is also currently 54 properties Citywide.
