

59126 Contracts and Project Awards

Please provide details of all contracts or project awards issued under any professional services framework(s) used by your organisation. This includes (but is not limited to) frameworks covering architecture, engineering, quantity surveying, project management, multidisciplinary consultancy, building consultancy and technical advisory services.

For each or project awarded under any such framework, please provide:

- Project / job name
- Supplier appointed
- Framework title and lot(s) used
- Description of discipline(s) involved
- Award amount / contract value (£)
- Breakdown where multiple lots or multi-discipline awards were made (i.e., allocation of value by supplier or discipline, if held)
- Date of award

To confirm, I am requesting actual award data, not tender evaluation scores or pricing schedules.

Please provide the information in Excel format if possible.

The centrally held information we are able to provide is included in the attached spreadsheet. We have provided information from the Council's own Professional Services Framework (current) and the expired Scotland Excel Framework. We have used two sources, so the element from the Contract Register (where the Lot is not recorded) may be available on the 'PSF Service Order Further Info' worksheet of the workbook.
