

59150 All Contracts Due to Expire Within the Next 12 Months

I am writing to request an Excel spreadsheet containing details of all contracts due to expire within the next 12 months.

Specifically, I would like the spreadsheet to include the following information for each contract:

- Contract reference number
- Contract name
- Start date
- End date
- Any extensions granted
- Contract value
- Winning bidder
- List of all other bidders who participated in the original tender process

Except for the identity of all other bidders who participated in the original tender process, this information is published on our Contract Register. This is on our website at:

<https://www.edinburgh.gov.uk/contractregister>

Information on extension granted is unavailable, however if the contract had come to an end, it would be removed from the Register.

Details of other bidders who participated in the original tender process are not centrally recorded and it would not be possible to complete the search for these within the statutory maximum cost of £600.
