PROJECT SUMMARY			
Location	Scheme is located on 54 existing one-way streets across Edinburgh		
Type of Scheme	Active travel improvement scheme		
Description	Scheme consists of measures to enable contraflow cycling on existing one-way streets. The proposed measures range from signing and lining to the provision of islands, uncontrolled crossings and enhanced footways. One scheme also includes changes to traffic signals and the provision of light segregation. Streets are all located in urban environments and are single carriageway roads with street lighting. All are subject to speed limits of 20mph or 30mph.		
Construction Start Date	TBC	Completion Date	TBC
<i>Select Stage Requested</i>			
STAGE 1	<i>Preliminary Design</i>	STAGE 2	<i>Detailed Design</i>
STAGE 3	<i>Completion of Construction</i>	STAGE 4	<i>Post Opening Monitoring</i>

AUTHORISATION	
Design Organisation	AECOM
Overseeing Organisation	The City of Edinburgh Council
