

59391 Dalgety Avenue Flooding History

9 Dalgety Avenue, Edinburgh, EH7 5UF

Is there a history of flooding?

The City of Edinburgh Council Flood Management Team has no records of flooding at this address.

The Edinburgh Shared Repair Service would not typically carry out works relating to flooding or flood-prevention, unless a defect presented an immediate risk to public health and safety.

Having reviewed the Statutory Notices against this property, there is no record of any works relating to flooding.

Has the building previously been underpinned or reinforced?

(I've already contacted SEPA for flooding and they weren't able to give me any information, and have tried a few channels for whether it has been underpinned or reinforced but to no avail.)

The City of Edinburgh Council Flood Management Team holds no records in relation to underpinning. From the Council's Planning Portal, there are no applications relating to any underpinning works at this address. <https://www.edinburgh.gov.uk/planning-applications-1/view-comment-planning-applications/1>
