

59461 Gaelic Speaker Families - Bun-sgoil Taobh na Pàirce

I would like to know how many children enrolled at Bun-sgoil Taobh na Pàirce are from families with Gaelic speakers.

According to information centrally recorded on our pupil database, 104 out of our 428 learners have Gaelic as one of the languages spoken at home.

However, please note the following:

- The database language field is not a 'required field', so the detail of whether a learner is from a family with Gaelic speakers may not always be recorded at the point of registration.
- We have no mechanism to measure the level of Gaelic language skill or fluency, nor the amount or frequency to which these learners may be exposed. This data can therefore only be taken as an approximate indication of the number of learners who have some use of the language in their home.
