

## 59532 Temporary Buildings at Schools

I am seeking information about the use of temporary buildings at schools in your area at present. If some information is not available (for example, the council may not have any idea how long it will need to use the temporary buildings at a particular school) then please make this clear in the appropriate field.

**Most of the information requested is attached. We are unable to provide you with total costs as we don't retain this information. Therefore, we have included monthly costs instead.**
