

59592 Meadows to Union Canal Project - Kings Theatre Area

I would like details regarding the budgeted cost and expected timeframe with specific regards to improving the area around the Kings theatre as part of the meadows to union canal project.

The budgeted cost for the design and delivery of the public realm improvement works around the King's Theatre is £622,000. The project is delivering improvements linked to the Council's Meadows to Union Canal project and capital maintenance programme, in addition to external elements of the King's Theatre Refurbishment project, with costs allocated between budgets accordingly. A funding award of £350,000 from the Walk Wheel Cycle Trust's National Cycle Network Development Fund 2025-26 has been secured by the Council to support delivery of the project.

Works began on site on Monday 12 January 2026 and are anticipated to be completed by the end of April 2026.
