Please can you tell me how many CCTV cameras the local authority operates and how many of these are produced by Chinese companies. Please can you show this as two figures.

The Public Space CCTV Section currently operates 455 cameras, none (0) of these cameras are produced by Chinese companies.

Facilities Management operate 1407 CCTV cameras, 839 are produced by Chinese companies.

All the Chinese made CCTV Cameras pre-dates the 2022 advice regarding the equipment, these cameras are in the process of being replaced.

Please also provide the total number of the council's CCTV cameras that use either live or retrospective facial recognition and how many of these are produced by Chinese companies.

The Council does not run any facial recognition software.
