

## 59747 CCTV

Please provide the total number of fixed and mobile public-space CCTV cameras currently operated by the council.

455.

Please indicate the year when those CCTV cameras were deployed/installed?

All but a handful of the 455 cameras were installed during the system-wide update project initiated in 2021.

Please indicate whether the council's CCTV system is primarily on-premises, hybrid, or cloud-hosted.

Please list the primary supplier(s) for video management software and whether the council operates an in-house CCTV control room, a shared control room (multi-authority), or a third-party operated control room.

In line with advice from the National Cyber Security Centre, we do not provide information relating to hardware, software and systems and therefore, unfortunately, it is not possible to provide you with this part of the information you have requested.
