

59807 Qualified Social Worker Salaries

Could you please provide me with your current annual salary ranges for the following role:

Qualified Social Workers

£39,129 - £46,023

If available, please also confirm whether the salary range varies depending on experience, qualifications, or length of service, and provide any documentation you hold which sets out these details.

Normally, new colleagues are placed at the bottom of the grade (in this case £39,129). In exceptional circumstances, a hiring manager could request a higher salary placement, but this requires sign off from the Service Director and/or the appropriate Executive Director.

Please also advise if this range is being increased for 2026/2027.

A 3.5% increase has been agreed nationally for all local employees, and this will be implemented from 1 April 2026 (£40,501 - £47,639).
