

## 59827 Safe Search on School iPads

Please provide information about the search and browsing apps available to pupils on school-issued iPads, including:

Which web browsers or search apps pupils are permitted or directed to use

Pupils are limited to one search engine, which provides enforceable safe search.

Whether any child-safe or restricted search apps are used in place of standard web browsers

Filtering and restrictions are in place.

Whether search engines or search settings (for example SafeSearch) are enforced through mobile device management, filtering software, or other technical controls

Safe search and other restrictions are enforced via our mobile device management system and other technical controls.

You may be interested in consulting our [Disclosure Log](#) for previous responses on this subject, namely '57736', '52939' and '42490'.
