

60051 Potholes Located on Burnshot Road

I am writing to request information regarding potholes located on Burnshot Road, just before the turn at Standingstane Road, in the period 14/01/2026 to 26/01/2026.

I would like to know how many notifications, complaints, or reports the council has received in relation to these potholes.

Between 14/01/2026 and 26/01/2026 there was one report on C157 - Kirkliston To Burnshot (Burnshot Road) located near Standingstane Road.

I would also appreciate details of the dates on which any such reports were made and whether any inspections or repairs were scheduled or carried out.

The report referenced in A1 was received on 19/01/2026, inspected on 22/01/2026, and assessed as a Category 4 defect which does not require immediate repair. Further information on defect categories and repair scheduling is available on our website at:
