I would like to request the following information with respect to the consultation around Waste and recycling Eglinton Crescent - P6-69 and P6/67.

Can you please supply me with:

- a summary of responses

Initial consultation (February - April 2025) received four responses, half of which agreed with retaining Gull Proof Sacks (GPS) and half disagreed. Additional consultation took place in August 2025 and received 54 responses (from 109 properties). 78% of respondents preferred to retain the GPS and 22% opted for communal bin hubs.

- the number of responses in favour of bin hubs

12

- the number of responses in favour of retaining gull proof sacks

42

- the number of responses requesting a change of location to the garden side of the crescent

9 responses

- the number / nature of responses that requested a change of location to those proposed in terms of what house number they should be located and why

We received no requests to locate bin hubs outside any house number.

I would also like to know which areas of the street are in support of bin hub vs number in support of gull proof sacks

We cannot provide this information due to risk of identifying preferences of specific properties and/or individual residents.
