

60188 The Edinburgh Tram - FBC Approval, Opening and Extension

For the FBC case, I understand that in the 2007 approval, phase 1b (Lower Granton - Haymarket loop) was also approved. I would like information on the exact location (or at least more detailed information about the rough location) of where these proposed stops were to be.

The information you have requested is available on our tram webpages, specifically part 1.7 of the [Edinburgh Tram Network STAG 2 Appraisal Report](#) of December 2006.
