

60243 East Gate at Warriston Cemetery

I would like to request a copy of the report that researched and investigated the possibility of reopening the East Gate at Warriston Cemetery in Edinburgh (located on Warriston Road, near the crematorium), which I believe was undertaken a few years ago. This report involved Bereavement Services and the Roads Department.

Please find attached the proposal which was not proceeded with due to cost and consultation required with a private crematorium provider regarding access and egress. We have also attached the Road Safety Audit Response.

Third party personal information has been redacted from the documents provided.
