

60284 Edinburgh's Low Emission Zone (LEZ)

Please provide me with the following information:

The total amount of money raised from the Edinburgh Low Emission Zone (LEZ) in 2025 (this can be the 2024-25 financial year if that is how it is recorded).

This information is available in the most recent LEZ Annual Report which is published on our website at:

<https://www.edinburgh.gov.uk/downloads/file/38783/low-emission-zone-report-2024-to-2025>

How much / what percentage of this revenue was from fines (from penalties for non-payment) and how much / what percentage was from chargers from daily fees from non-compliant vehicles?

This information is available in the above-referenced most recent LEZ Annual Report. Please note that drivers of non-compliant vehicles cannot pay to enter the LEZ.

How has the revenue raised from LEZ fines and fees been spent?

Please state how much has been used to pay for the LEZ, and for all excess revenue please list the separate projects supported and how much has been spent on each.

Section 27 of the Transport (Scotland) Act 2019 sets out how the Council may use the income from LEZ Penalty Charge Notices. The Council's distribution of surplus income is detailed in the most recent LEZ Annual Report referenced above.
