Enquiry No.: 31602957 **Logged by:** [REDACTED] **on:** 09/08/2023 08:49
Service: Roads General **Subject:** Road: Defective / Damaged **Classification:** Request for service
Desc.: Please log on confirm for an inspector to visit site and arrange for the sign defects to be attended to.
Taken from the email below concerning Police Scotland reported traffic sign defects:-

- 1)At Waverley Bridge when walking from Cockburn Street towards Princes Street, the sign on the left hand side about halfway down the bridge (Pedestrian and Cycle Zone) is the wrong way round
- 2)When coming out of Merchant Street, there is a sign opposite to indicate that the street is one way, however it is very obscured by stickers etc.

Other details : Provision of Taxis at Waverley Station

If your comments relate to a council service for which you have an account then please provide an account number :

Short description of complaint : The taxi rank in Market street is dangerous as visitors have to negotiate heavy traffic and stand on corner at a three way road junction.

Please provide the details of the complaint : The other taxi rank at Waverley Bridge is inadequate as the Taxi sign is beside a litter bin. Taxis can no longer access Princes Street. Also because the pavements have been widened taxis have to do a three point turn to change direction. The taxi sign should have contact information so that a taxi could be requested. As the capital city I feel the taxi service provided could be improved!

How would you like us to deal with this? : Improve the provision of taxi services at Waverley station.

Location: Taxi rank Waverley Bridge **Contact:**

Subject:

Hi
Today I have walked around Edinburgh city centre. I am appalled at the mess, not tourists but the amount of Heras fencing. It is put up by the council when it decides it will fix things later. It's in cemeteries on walkways. The council removed the open air bars from Princes Mall and now it's covered in heras fencing. Please fix the problems .
I am born and bred in Edinburgh and extremely proud.
Rant over.
Thank you
[REDACTED]

Location: I was walking northbound on the west pavement on Waverley Bridge at 12.30 lunchtime on 29/12/23 when I tripped on what I suspect was a metal bolt imbedded in the pavement. I went flying, fell forwards and ended up with a nasty head injury. Had to go to A&E in a taxi with [REDACTED]. I was suffering from shock and could not speak when we arrived at the hospital. I do not want this to happen to anyone else, and hate to think what it would've been like if I was on my own. Photos below. **Contact:**

Location: Temporary bollards are extremely slippery when wet after it has been raining. Me and my family were walking over Waverley bridge at 3pm Christmas Day. My [REDACTED] slipped when crossing the temporary bollards and fell flat on back. [REDACTED] really hurt her backside and was completely soaked from head to toe. **Contact:**

Location: Outside Waverley Bridge. **Contact:**

The ballads that are in place are too far down the road which is preventing the longer vehicle for deliveries turning issues. This is a knock on effect as they are now unloading at the top of the ramp which is a safety concern for members of the public. Can these be moved further up to prevent this matter from reoccurring
