

60419 Road Damages and Repairs

How many reports of road damage have been made in the past year (365 days) for the following roads:

Tipperlinn Road, Craiglockhart Avenue, Drum Brae South/B701, St Johns Road Drumbrea Roundabout.

I would also like to know how many of these roads were fixed within 60 days of the first reported road damage.

In the requested timeframe there were 327 reports of road damage, of which 64 jobs were completed within 60 days of being reported. Please note that not all 327 reports lead to a 'job' being created. All 64 jobs were completed within the 60-day deadline, and while some jobs are still open these are within their target completion date.
