<b>Service:</b> Roads General	<b>Subject:</b> Pavement: Damaged / Defective	<b>Classification:</b> Request for service
<b>Desc.:</b> London road please inspect pavement opposite Meadowbank Stadium as it's uneven and needs inspected before an accident happens.		
<b>Location:</b> London road, Meadowbank Stadium	<b>Contact:</b> Lacy Napier	
<b>Enquiry No.:</b> 31603315	<b>Logged by:</b> [REDACTED]	<b>on:</b> 10/11/2024 19:04
<b>Service:</b> Roads General	<b>Subject:</b> Traffic Sign: Defective/Damaged	<b>Classification:</b> Request for service
<b>Desc.:</b> On London road a sign was added that makes the road unsafe and challenging to use for pedestrians, especially those with prams, mobility related disabilities, visual impairments. Attached are photos of the new signage placed in front of the poles of previous signage as well as the current signage. Together the two make the pavement unusable.

<b>Location:</b> The cycle lane on this section of London Road is in bad condition with lots of potholes and uneven surfaces, making it feel quite treacherous to cyclists, especially as I use the new Voi hire bikes which do not have any suspension.

Short description of complaint : Hi, I'd like to complain about two things please: - The small green bicycle on the traffic lights - The flow of London Road / A1 traffic Thanks, [REDACTED]

Please provide the details of the complaint : - The small green bicycle on the traffic lights As a cyclist I understand the thinking of allowing bikes to go first. I'm okay with that. The idea makes sense. As a car user it is infuriating waiting for the green bike when there are no bikes there. There should be a rule where if there are no bikes, the traffic should be allowed to flow. - The flow of London Road / A1 traffic The amount of traffic lights on London Road down to Meadowbank is over the top and the flow of the lights doesn't work. The two issues are: - Where meadowbank feeds into the A1. There is too much time given for cars coming from Meadowbank to join the A1. It means going straight on the A1 is incredibly slow. - Where the A1 meets London Road - there is too much time given to cars coming from up down from Regents Road and feeding into London Road. Again it brings all buses, cars and bikes to a halt.

How would you like us to deal with this? : I would like you to change the guidance on the green light for bikes to allow cars to go if there are no bikes. I would also like you to review the flow of traffic from Jack's Lodge up to where it the A1 meets Easter Road. The amount of traffic lights is over the top and the flow of traffic from side streets is not calibrated effectively.

**Location:** Where the A1 meets London Road      **Contact:**

Short description of complaint : We are writing to express our safety concerns regarding the pedestrian crossing next to the Artisan Bar - Abbeyhill Junction with London Road

Please provide the details of the complaint : I messaged you on 28.1.25 and am still waiting for a response!! Here is my message again: Hello, We are writing to express our safety concerns regarding the pedestrian crossing next to the Artisan Bar - Abbeyhill Junction with London Road, cars heading east. Pedestrians are given a pedestrian green light to walk across the road whilst, simultaneously, a stream of cars also passes across this same area of the road! Yesterday, we saw several pedestrians almost mowed down by these cars (whilst crossing on a pedestrian green light!) On the other hand, cars queue from the junction with Abbey Lane and therefore assume they have the right of way as they have no red traffic light indication at the pedestrian crossing in question. They likely consider they have the right of way and do not consider they need to stop to let pedestrians cross. This junction needs clarity for cars, i.e. a red light at the crossing - otherwise, we feel it is just a matter of time until there is a serious accident at this junction. Please can you look into the seriousness of this issue before it is too late. We look forward to your response. Kind regards, [REDACTED]

How would you like us to deal with this? : Assess the junction issue and respond

Customers Comment: The road works on London Road have been causing massive disruption to me and my partner in our flat. We live at [REDACTED] and the night time work has been keeping us up for more than two weeks. Last night and tonight it has gotten so bad that our pillows are vibrating in bed and a picture fell off the wall. It's constant noise and it needs to stop. I'm exhausted at work and both of us are now getting ill from the lack of sleep.

Desc.: Last night was the third or fourth night of Road work for London Road Edinburgh Scotland and I live at [REDACTED]

Your work men are working well past the agreed time. Last night there was scraping machines across the ground after midnight and I was woken up and I had ear plugs in by men shouting at each other. When I got up to look out the window your men were grouped in the middle of the road I couldn't make out much of what was said but yeeha was heard at 11:30 ,12 1and again at 1:20. There was cleaning trucks going up and down the street at the same time and when they backed up you can clearly hear the vans bleeping because it's being backed up. My medication has worn off so when they woke me up at 1;20 again I didn't get back to sleep last night and it's been going on for days now and I'm so tired I can remember what day it is because they are starting to run together for me. I myself am ill and off work but the people who do work are all moaning about how late this is going on until. Also it's people who have severe health issues and in wheelchairs window they are outside of shouting because it's so loud and they have ear protection on and don't realize how loudly they are shouting at each other. This is not what you wrote and said would happen. Lower noise the building was shaking at midnight and there is cameras on this building that could help with everything I've seen and heard. It's not fair for the kids who have to go to school my [REDACTED]

[REDACTED] pray that you have been contacted by every body who can hear your work men. I hanks for any help with this matter as I know you have to work but please don't breach what you wrote for the instructions for the work.

All help with this matter is greatly appreciated by everyone in [REDACTED]

**Desc.:** Customers Comment: I would like to complain about the orange plastic barriers left since mid-December on the pavement between Meadowbank stadium and the shopping area. I'm really fed up about having to walk on the road just to avoid these hazards because the "workers" abandoned their job. Same thing on the other side of the road next to McDonald's. They now all fell on the ground because of the windy weather. Are you waiting for an accident to happen?!! And I don't even know what job is being done since I've NEVER seen any worker in this area. Please remove the barriers before somebody gets hurt! Regards.

**Location:** It appears that the road/junction improvements at the Abbeyhill junction has finally finished. However the condition of the section of road going into town from the junction with Abbey Lane up to the main traffic lights at the bottom of Montrose Terrace is covered in broken sections and potholes. I find it hard to believe that the road has been left in this condition after supposed "improvements". When will this be repaired and why was it not resurfaced at the time of the "improvements"?      **Contact:**

**Service:** Roads General **Subject:** Road: Defective / Damaged **Classification:** Request for service  
**Desc.:**  
**Location:** There are two potholes about the circumference of a football and 5 inches deep just prior to the cycle lane if driving towards Leith Street. They are about 5 or so foot from the kerb and some distance apart from one another.

These potholes are dangerous for bicycles and nearly caused me to fall off my bike. The smaller deeper one caused a puncture in my bicycle tyre. I would like to request that I be reimbursed the £19.99 required for a new inner tube for my tyre to amend this.

**Plot Number:** 5.00 **Feature Id - Location:** Ward 11 - From Hillside Crescent to Hillside Crescent **Feature Type:** Road Asset

**Desc.:** London Road (Dalziel Place) Wishaw Terrace to Marionville Road is full of large pot holes and is causing vibrations when a bus or lorry in the flat and can feel it at the top floor. This has increased since the bike lane was installed. This is being caused by traffic going both ways. The paving slabs on the pavement London Road (Dalziel Place) are becoming even more dangerous, uneven and unsafe and is being caused by the vibration becoming loose.  
A person has fell as there the pedestrian crossing Cr London Road (Dalziel Place) & Cambusnethan Street the surface is uneven and a danger to pedestrians. This was repaired approx. 2 years again.

I have spoken to the citizen in depth about the situation and want to talk to someone in the roads department to discuss this [REDACTED] before this is escalated further as a complaint.  
**Location:** Dalziel Place      **Contact:**

**Desc.:**  
**Location:** London Road, eastbound at Meadowbank Stadium. Several deep potholes causing a hazard for cyclists to avoid. An absolute disgrace in road maintenance in this area. Instead of cycle lanes that very few people who ride a bike daily have asked for, perhaps fix the roads that cause more safety problems for cyclists on a daily basis than traffic.      **Contact:**
