Good Morning [REDACTED]

That is good news. I attended the meeting earlier in the week to get a sense of where the parents were feeling and the problems it would present for them as I did not know the provision situation in the area. I felt there was an honesty in the room about the journey they were on and that the manager did seem confident they would get to the Good grade that is needed.

Thanks
[REDACTED]

Hi [REDACTED]

Jackie and I have considered the discussion from Tuesday evening and agreed that an extension to the out of partnership process would be a reasonable approach.

Therefore, Wee Macks and the other providers (Thrive Teviot House & Busy Bees Forres St) who have been notified of the end of partnership process will be informed today that the process will be extended from the 3 month notice period to the end date of their current temporary partnership agreement which is 12 August 2026. This will ensure a consistent approach with all providers.

I will also prepare a briefing note for ECF members to update them and provide details of another provider who will enter the out of partnership process next week.

Kind regards,
[REDACTED]

Hello

I have given this some consideration after last night's meeting with parents. Do you have any course of action open to you to give them more time or will I have to bring a motion to committee.

Kind Regards
