

## 60739 Number of Places in Private Student Accommodation

I would appreciate it if you could inform me about the number of places in private student accommodation that have been authorized by the Edinburgh City Council through licenses granted for this economic activity since 2000.

The Licensing service issues licences for Houses in Multiple Occupation (HMO). The standards for HMO property are the same for all properties that the Council licences. These are set out in the statutory guidance and therefore we have no operational need to categorise the occupiers.
