

60778 Planning and Safety Assumptions for Heritage Grange Street Design

I would like to request information relating to the planning and transport assessment for the Heritage Grange development, particularly in relation to street design and pedestrian safety.

Please provide copies of:

Any Transport Assessment, Transport Statement or supporting transport documentation submitted as part of the planning application for the Heritage Grange development (planning reference 14/04860/FUL).

Any documentation describing the expected traffic volumes and vehicle speeds on internal streets within the development.

The Transport Assessment, which also includes traffic modelling and forecasts, associated with this planning application is available on the [Planning Portal](#).

Any documentation explaining how pedestrian safety was expected to be achieved on shared surface streets without continuous pavements.

Any post occupation review carried out by the council or developer assessing whether the streets are functioning as intended in practice.

Please see [Road Safety Audits attached](#). Third party personal information has been redacted from the documents provided.

Any documentation assessing how children would safely access Frogston Primary School from within the development.

Any documentation identifying whether internal streets such as Arkaig Gardens were expected to function as routes to a school or public park.

We are unable to provide you with the information requested as it is not held by the Council.
