

60796 Liberton Hospital Redevelopment

I am requesting copies of all biodiversity impact assessments / reports, and associated mitigation action plans for the planned housing development at Liberton hospital site.

<https://www.edinburgh.gov.uk/area-regeneration/liberton-hospital-development>

There are no such assessments, reports or action plans held.

This project is at an early stage. The Council's Development and Regeneration team are in the process of appointing a contractor for this development. Once appointed they will instruct a design team to develop a masterplan which will be submitted to the Council's Planning Department along with ecology and biodiversity reports, for approval.
