

60840 Mobile Phones in Schools Consultation - Published Information

The published information gives the breakdown for secondary school parent/carers (54%) and all parent/carers (73%) who want restrictions in school for the whole school day. However, it doesn't give the breakdown for primary school parent/carer and any other category of parent/carer.

Please could you give me the percentage who would like restrictions for the whole school day in each category of parent/carer that make up the total number of 73%? (eg primary school parent/carers and any other category)

6397 responses in total were received from parents and carers as follows:

53% of responses were from parents/carers of children in primary school.

47% of responses were from parents/carers of children in high school.

Less than 1% were from parents/carers of children/young people in special schools

Of the responses received, we have an overall analysis regarding agreement/disagreement on phone restrictions. This is not broken down by sector and is as follows:
