

## 60883 Committee Meeting Decision to Remove Bin Hub

Could you please inform me at which committee meeting and on what date the vote/decision to remove the bin hub located between Murrayfield Avenue and Murrayfield Place was taken?

The installation, relocation and removal of each of the 1,600 bin hubs around Edinburgh does not require Committee approval. Committee have approved a framework (which has changed throughout the project lifecycle) and we ensure bin hub locations meet that criteria, where possible. Reviews of bin hubs have taken place during the project, resulting in some bin hubs moving, some bin hubs merging and some bin hubs being removed.

For context, you can find a previous response regarding this particular bin hub on our [Disclosure Log](#) under reference number '50198'.
