

## 60898 Licensing Requirements for Beauty, Tattooing, Electrolysis and Aesthetic Procedures

The name of the licence/registration/approval (and whether it applies to premises, practitioners, or both).

We operate a skin piercing/tattooing licence scheme. This covers acupuncture, cosmetic body piercing, electrolysis and tattooing. The scheme only applies to operators; however an operator would be responsible for the premises, and they would be inspected as part of the I

The legislation or legal basis relied upon.

[Civic Government \(Scotland\) Act 1982 \(Licensing of Skin Piercing and Tattooing Order\) 2006.](#)

Which Council service/team administers it (for example Licensing, Environmental Health, Building Standards) and the best point of contact for applicants.

[The scheme is led by the Licensing Service, who will consult with other Council services as required to reach a decision on the licence.](#)

Copies of, or links to, the current:

Standard licence conditions (premises and practitioner, if separate)

Guidance notes for applicants

Application forms

Fee schedules

Inspection checklists and minimum hygiene/infection control requirements

[Please see the Licensing webpage for licence conditions, notes for applicants, and application forms, our fees and charges webpage for current fees and the attached implementation guide for control requirements.](#)

Any additional Council requirements that are commonly applied to treatment rooms and premises for these activities, including (if held) Building Standards or Planning guidance used by the Council.

Please provide any recorded information the Council holds about planned, proposed, or expected changes to these licensing or approval requirements for the above activities, including any reviews, draft policies, committee papers, reports, and any recorded target timescales. If the Council holds no recorded information about future changes, please confirm that no recorded information is held.

[Information not held.](#)
