

60899 Traffic Regulation Orders and Parking Enforcement

I am writing to request information in relation to Traffic Regulation Orders and parking enforcement within the City of Edinburgh Council.

Please provide the following:

1. Traffic Regulation Orders / Traffic Orders

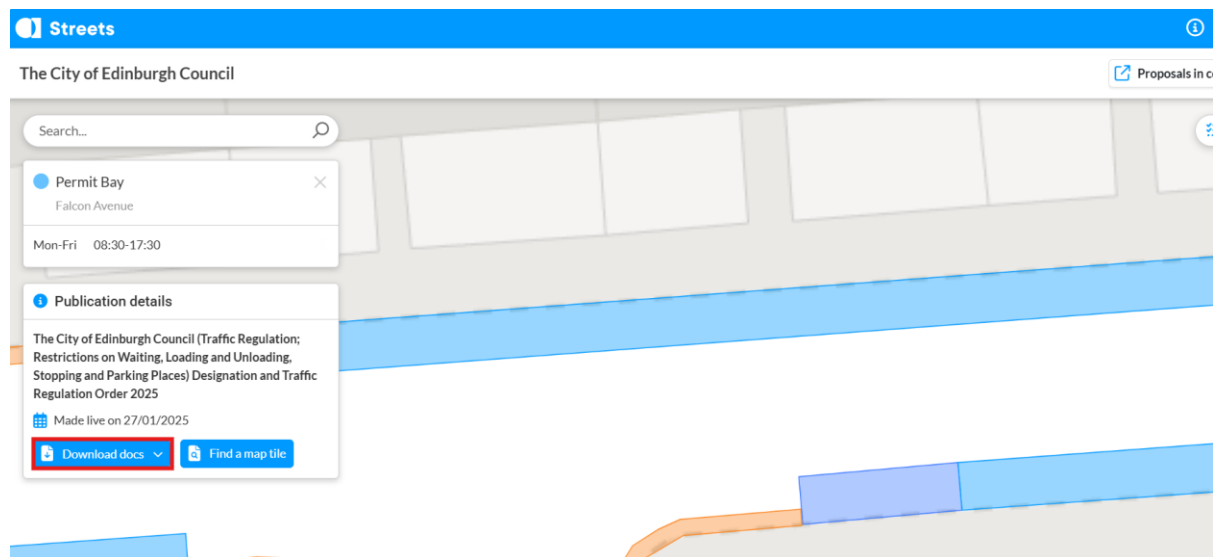

Copies of all current Traffic Regulation Orders (or equivalent Traffic Orders) relating to parking, waiting, loading, and permit restrictions within Edinburgh.

This should include all relevant schedules, amendments, and consolidated orders.

Please visit our interactive online Traffic Regulation Order map at:

<https://streets.appyway.com/edinburgh-city>

Once you have searched for and selected a parking control, you can click on the button highlighted in the image below to view any related documents.

2. Structured Restriction Data (Operational Use)

Any datasets, spreadsheets, GIS layers, or system exports used internally to manage or interpret parking restrictions.

The structure or format in which restrictions are stored (e.g. street name, restriction type, times, zones).

No information is held, beyond what is included in the interactive online Traffic Regulation Order map referenced above.

3. GIS / Mapping Data

Any digital mapping layers or datasets used to represent parking restrictions across the city.

4. Parking Zones / Controlled Zones

A list and map of all parking zones, including zone identifiers, operational days, and times.

Details of how restrictions differ between zones.

Please visit our interactive online [Traffic Regulation Order map](#) referenced above.

5. Permit Schemes

Details of resident, visitor, and business permit schemes, including zone structures and eligibility.

Please visit our website (<https://www.edinburgh.gov.uk/parking-permits>) to view details of the available parking permits. You can also view Edinburgh's parking zones (which pertain to parking permits) and search for addresses within them on our Parking Permit Map at:

<https://www.edinburgh.gov.uk/parking-permits/parking-permit-address-search>

6. Parking Enforcement Policy and Operational Guidance

Current enforcement policies.

Any operational guidance issued to enforcement officers, including observation period guidance.

Please refer to the Council's Parking Enforcement Protocol published on our website at:

<https://www.edinburgh.gov.uk/downloads/file/31423/parking-enforcement-protocol-v3-october-2022>

7. Camera Enforcement (if applicable)

Locations and policies relating to CCTV or camera-based enforcement.

Bus Lane enforcement camera locations are provided on the Council's website at:

<https://www.edinburgh.gov.uk/parking-tickets/bus-lane-notice>

LEZ camera locations cannot be disclosed and are withheld under Regulation 10(5)(a).

There are no relevant camera-related Council policies in respect of parking and traffic regulation, although the use of cameras aligns with the relevant legislation and the Council's enforcement responsibilities.
