

60900 Kerb Parking - Russel Gardens

I would like to know from year 2021 for each year how many similar parking tickets have been issued for kerb parking alone in this location, Russel Gardens.

Since 2024, when enforcement of dropped kerb parking began, there have been 39 Penalty Charge Notices issued in relation to dropped kerb parking in Russell Gardens (as of 20 March 2026).

What is the total value of money collected from this violation of kerb parking offence in this location as this is a Residential location with 2 kerbs with one roundabout and without white line marking.

The sum of payments against the 39 above-mentioned Notices is £1,950.00 (as of 30 March 2026).

Just want to know how much will the white line marking cost against the amount collected on this offence for the past 5 years.

I will elaborate; this is the 'Access Protection Markings'.

As stated in Location Russel Gardens there are 2 sets for kerb next to the roundabout, this makes it 4 single kerbs, how much would it cost for this 4 single 'Access Protection Markings'?

The cost for an Access Protection Marking (which is an advisory road marking only) is £179.00.

Further information regarding the application process and terms and conditions can be found on our website at:
