

## 60998 Time Provided to Mentors to Help Train Student Teachers

We are seeking information regarding the time allocated to mentors to undertake the role of training student teachers and any support provided to mentors in undertaking this role.

Individual schools allocate time to supervising teachers (mentors) to carry out the role. All City of Edinburgh Council schools follow the HEI placement handbook guidance and ensure the role of the supervising teacher (mentor) is enacted.

Support provided for mentors:

- Professional learning offered through HEIs, such as effective mentoring approaches.
- HEI Placement Handbooks and Thumbnails.
- City of Edinburgh Council Professional Learning Offers on mentoring and coaching.
- All schools have an allocated School Regent that provides support to mentors and has responsibility for managing all student teachers in the school.
- Support provided by the Student Placements Business Support Officer and the Quality Improvement Education Officer.
- Support provided from HEI Course Tutor and Placement Officers, as required.
