

61057 Statutory Notice - request for details - Rose Street

I would appreciate your help with the statutory notices shown in the attached search for 77 Rose Street. I would appreciate knowing the total cost of each and how the costs were divided out.

Also would this be the complete list of statutory repairs against this tenement – I am interested on any that were incurred from to 1987 when I bought one of the flats to present day.

Please see the attachment in which a full list of Statutory Notices is recorded against the property, along with information on the total cost of works, cost-per-share and number of shares. Please note that in some cases this information is no longer held due to the age of the associated Notice.

All costs were apportioned in equal shares, in keeping with the terms of the City of Edinburgh District Council Order Confirmation Act 1991, which governs the service and enforcement of Statutory Notices.
