

61148 Water of Leith Defence Works

I write to ask for access to two surveys carried out by the council relating to Water of Leith flood defence works. They were the surveys relating to Block 5 Ettrickdale Place, Edinburgh EH3 5JN, carried out by firm Will Rudd and Davidson Ltd (now Will Rudd) in Edinburgh. There was a before and after survey, September 2010 then August 2013.

Please see attached the [Condition Survey Reports relating to Block 5 Ettrickdale Place from November 2010](#).

We have been advised by Will Rudd that on completion of the flood defence works in 2012/2013, residents were asked if they would like a follow up survey. In the case of 5 Ettrickdale Place there was no uptake for a resurvey, so this was not carried out.
