

61219 Visitor Parking Permits

Could you tell me, please, where to find the authoritative text of the TRO which regulates visitor parking in Zone 4 and in particular Glengyle Terrace?

The council seems to publish only proposals for new orders and some recent ones;
<https://www.edinburgh.gov.uk/roads-pavements/view-comment-traffic-orders-new/5>

Please visit our online interactive TRO map at:

<https://streets.appyway.com/edinburgh-city>

Once you have searched for the name of the street you wish to view, you can click on the relevant parking controls and then click the “download docs” button on the left of the screen; this will allow you to access copies of all related documents, including the made TRO.

Are there any proposals or action to implement the proposals for modernisation of the visitor parking permit scheme, as instructed more than five years ago by the Transport Committee on 22 April 2021?

(<https://democracy.edinburgh.gov.uk/documents/g5662/Public%20reports%20pack%2022nd-Apr-2021%2010.00%20Transport%20and%20Environment%20Committee.pdf?T=10>)

Has there ever been any action on this?

Where can I find this recorded?

If there have never been any such actions or proposals, why not?

The Visitor Parking Permit Scheme is currently being reviewed as part of the Council’s wider Parking Pricing Review. As the review progresses, officers will provide a report to the Council’s Transport and Environment Committee, detailing recommended changes and improvements. Committee reports are published on our website at:

<https://democracy.edinburgh.gov.uk/uuCoverPage.aspx?bcr=1>

These can be searched by ‘Committee library’ or by ‘Calendar’.

In particular, where can I find what if anything is happening on the necessary modernisation of the visitor permit scheme, as discussed in part 4 of this report:

<https://democracy.edinburgh.gov.uk/documents/g5662/Public%20reports%20pack%2022nd-Apr-2021%2010.00%20Transport%20and%20Environment%20Committee.pdf?T=10>.

Results of the review will be reported to Committee following its conclusion and published on our website.
