Subject: RE: Davidson's Mains Roundabout Upgrade

Good Afternoon [REDACTED]

Although there will be opportunities for TTL later on in the works programme, we believe that at the outset a full closure will be necessary to significantly progress the works. This will in place for the first two weeks during the school holidays. After this, we are looking at TTL if the delivery contractor believes it will be safe to proceed in that way.

I would be pleased to discuss.

Kind Regards,

[REDACTED]

 External email >

Good morning [REDACTED],

I believe [REDACTED] asked for the possibility of TTL's being sited in order for us to continue to provide service provision. Can you let me know today please. We need to release comms out as soon as practicable to make our drivers, customers and stakeholders aware. We are anxious about kickback here from customers, stakeholders and elected officials.

Regards

[REDACTED]

[REDACTED]
Good Afternoon [REDACTED]

With regards to the above scheme, by way of update, we are now about to appoint a delivery contractor for the works with the agreed start date of 7th April 2026. As discussed previously, owing to the nature of the work, during the first phase of remodelling the roundabout, the road is expected to be closed full time for a minimum of 4 weeks.

In particular, we are mindful of school students who have exams after the Easter break and we would like to communicate the bus diversions accordingly. I understand my colleagues in the Communications Team are creating a website and I wondered if diversion details could be published on there, with a link shared to the schools and local community.

Happy to discuss.

Kind Regards,

[REDACTED]
