

61667

Please could you provide the following details regarding your authority's Urban Traffic Control (UTC) / traffic signal management system or traffic signal fault management system:

The name of the software platform currently used to manage and control traffic signals (commonly referred to as UTC software or RMS and usually supplied in the UK by companies such as Yunex, Swarco, Telent and TRL).

Software used, UTC-UJ & Stratos UTMC

The name of the supplier or vendor of this system.

Yunex Traffic

The start date of the current contract for this system.

05/12/2022

The expiry date of the current contract (or the next renewal/break date, if applicable).

04/12/2033 (5year + 3year + 3year contract)

The job title and/or team responsible for managing and operating this system. If possible, please also provide the name of the senior responsible officer (e.g. Head of Service or equivalent).

Intelligent Traffic Systems (ITS), Mark Love ITS Manager

If the UTC or RMS software is provided as part of a traffic signals maintenance contract, please provide the answers for points 1-5 above for this contract instead.

The above contract is not in conjunction with our traffic signals maintenance contract, with the Traffic Signals maintenance carried out under a separate tendered contract.
