

61690 Observations of Care Home and Care at Home Staff

Please provide any recorded policies, procedures, guidance documents or instructions used by the City of Edinburgh Council that relate to the observation of care home or care at home staff by approved SVQ assessors, where the staff member is self-funding their SVQ qualification. This request applies only to staff working in care homes or care at home services operated directly by the City of Edinburgh Council. Where this is not possible, I would also seek any policies, procedures, guidance. documents or instructions established by HR or council leads.

Where an employee requires a qualification as a condition to their registration with the Scottish Social Services Council, the Edinburgh Health and Social Care Partnership will fund this. Therefore, we do not have anyone self-funding their SVQ. SVQ assessors are provided by the college.
