

61734 – Harrison Road Railway Bridge

Plans/technical drawings for reinstating of the Harrison Road Railway Bridge (in particular, concerning in what shape or form the bridge is planned to reopen.)

A plan and elevation of the new bridge are attached (part extracts from drg CB-000010 P04 and CB-000011 P04).

Detailed schedule of the planned bridge works from now until the end of August 2026.

Detailed schedule of planned bridge works is attached (part extract of the Construction program rev 07). Demolition is proceeding well so we are approximately two weeks ahead of the dates indicated on this program.

Information about costs for repairing the bridge.

The contract is an NEC ECC Option E cost reimbursable contract whereby the Contactor is paid their costs plus a fee percentage. The final cost is therefore not determined at this time. The current expenditure is £471k for the works to Harrison Road Bridge and Harrison Road Canal Bridge.
