

## 61907 Parkgrove Avenue and Parkgrove Drive - Survey Information

I would like the survey information that I was told was conducted and collected in regards to recent roadworks and road layout changes on Parkgrove avenue and Parkgrove drive.

No topographic survey was carried out in advance to establish existing ground and feature levels beyond site inspection and assumptions from design proposals. We have attached the previous Automated Traffic Counts (ATC) in 2022 and 2024 that record traffic volumes and speed data for Parkgrove Avenue and Parkgrove Drive. This informed the design proposals to mitigate driver behaviour as they move through the Parkgrove estate.
