

62012 Grass Reinforcement Path Between Glenallan Drive and Liberton Primary School

We would be grateful if you could provide us with the following information:

Records of inspections relating to the grass reinforcement path between Glenallan Drive and Liberton Primary School in Edinburgh (opposite to Glenallan Drive) covering the period 1st January 2023 to the present date.

Although our Park Rangers undertake site visits on a regular basis, these are not always recorded, so no information is held or available from our Parks and Openspace service. Our Grounds Maintenance teams regularly cut the grass over and around the path over the Spring to Autumn period but have not recorded any issues. We do carry out annual Parks Quality Assessments and are not aware of any issues with this path being raised.

Maintenance records including records of independent contractors working on the grass reinforcement path over the said period.

As above, there is no information held or available from our Parks and Openspace service.

Records of complaints about the condition of the grass reinforcement path over the said period.

There are no such records held, other than the one arising from this incident in April 2026, where the defective tile has been repaired.

Records of any accident which have occurred on the grass reinforcement path over the said period.

We are aware of three incidents since April 2026. Following these reports, a repair has been carried out.
