

62207 - Hydrological Assessment - Area Southeast of Livingston

The requested search area extends to 5km from the central point centred at NT 07857 62618. As part of our assessment, we are interested in any information The City Council of Edinburgh holds regarding the following:

Flood Risk Information

Details of any existing and proposed flood defence measures in the area and information regarding the impact of these defences on flood water levels (if applicable).

The area of this request lies mainly in West Lothian Council boundary, the only area in the ownership of The City of Edinburgh Council is Harperrig Reservoir which is managed by the Flood Management Team. Alterations to the reservoir spillway were carried out in 2011 as part of the Water of Leith Flood Protection Scheme. The General Arrangement and Spillway Details drawings are attached for information

Any information held on historic flood events in this area, including date, extent of flooding and flood water levels (if available).

Edinburgh Council Flood Management has no records of flood events for this area.

Any information on the risk of groundwater flooding and surface water drainage flooding in this area together with records of any historic incidents.

Edinburgh Council Flood Management has no records of ground water or surface water flooding for this area.

Private Water Supplies (PWS)

Could you please provide details of any Private Water Supplies within or near to the search area, including the source (i.e. groundwater, spring, watercourse) and location of the abstraction (as a grid reference ideally) and the number of properties it supplies, if known.

Edinburgh Council do not have any records of Private Water Supplies for this area, Scottish Water may hold this information.

Historic Landfills

Information regarding any historic landfills in the search area. We would be grateful if you could supply us with any information regarding the areas and times of disposal, the nature of disposal and wastes involved.

The City of Edinburgh Council has no information on historic landfill sites in the requested area.

Nearby Proposed Significant Developments

Any summary information (e.g. planning application number, development activity) of proposed or recently approved significant developments (i.e. quarries, mines, roads, water treatment works, windfarms, hydropower schemes, etc.) registered within the search area.

The area of this request lies mainly in West Lothian Council boundary, the only area in the ownership of The City of Edinburgh Council is Harperrig Reservoir which is managed by the Flood Management Team. The Planning application number for the association Flood Protection Scheme works is LIVE/1266/FUL/03 and full details for this can be found on the West Lothian Planning Portal - <https://planning.westlothian.gov.uk/publicaccess/>
